

## June-July 2008

Academy e-letter

Volume 6, Numbers 7/8

From the Desk of J. R. Brandt DC, FACO

President, Academy of Chiropractic Orthopedists

Good Morning Doctor,

You recently had one of the longest e-letters from me, this will be the shortest.

We are in the “between” and “getting started” stages on a number of projects.

The 2010 Masters program is getting ready to go to the parent committee for coordinating, splicing, dicing and all that is necessary to complete the outline and syllabus. It will then be ready to present the completed manuscript to the institutions that are preparing to present the advanced degree program. The time line is November 1, 2008.

Please visit the [website](#) as changes have been made, it has been updated. Thanks to our webmaster!

Please visit the [e-Journal](#). The new issue will be posted soon. The Editor and staff have continued to do a great job.

Fellow pamphlets are on sale through September 2008, check the [website](#) or call the Academy office for pricing.

Enjoy the summer!

I always like to quote a great philosopher, famous person, clergy or someone who has given us a great thought ... here is one for the summer.

*Baseball is 90 percent mental. The other half is physical ...*
